2nd Japan-Korea Lipid Joint Symposium

September 12 (Wed) – 14 (Fri), 2018

Hokkaido University
Sapporo, Japan

Welcome Message

Dear Korean and Japanese lipid researchers,

We enjoyed the 1st Korea-Japan Bioactive Lipid Joint Symposium, held in Jeju island, South Korea in 2016. It is my great pleasure to welcome you to the 2nd Japan-Korea Lipid Joint Symposium, which will be held from September 12 to 14, 2018, at Hokkaido University.

This symposium includes plenary lectures, oral presentations, and poster presentations on the latest advances in lipid areas from basic to clinical research. We believe that this symposium will promote our collaborations and strengthen scientific relationship and friendship between Japanese and Korean researchers.

Hokkaido is an excellent place where you can enjoy sightseeing, eating, and playing seasonally, and has been attracting more visitors around the world. The weather in Hokkaido is very comfortable in summer.

We hope you will have a stimulating and memorable symposium and enjoy your stay in Hokkaido.

With best wishes,
