

2019 KSMCB, The Biological Rhythm Symposium

제 1회 생체리듬 준분과 심포지엄

7월 1일

Opening	13:00	13:30	등록 및 개회사
1 st session	13:30	14:00	김경태 (포항공대) Facilitation of circadian rhythm with transcriptional regulation of D site-binding protein by hnRNP K
	14:00	14:30	손기훈 (고려대) Impact of NR1D1/REV-ERB α on mood regulation and its implications in bipolar disorder
	14:30	15:00	정은지 (연세대) Light NREM sleep stability, but total sleep amount, is critical for memory formation
Break	15:00	15:20	Coffee Break
2 nd session	15:20	15:50	임정훈 (UNIST) Metabolic control of sleep in <i>Drosophila</i> : amino acid metabolism and adaptive sleep behaviors
	15:50	16:20	서필준 (서울대) The impact of chromatin dynamics on circadian oscillation
Young Investigator session	16:20	16:50	이종빈 (UNIST) A new adaptor of the Cullin-3 ubiquitin ligase sustains behavioral rhythms and PDF peptide release in <i>Drosophila</i> circadian clock
	16:50	17:20	김은란 (연세의대) Neural oscillations and dynamics: a key to effective obesity treatment
Break	17:20	17:30	Break
Dinner and Poster session	17:30	22:00	저녁식사 및 포스터

7월 2일

Student session	9:30	9:45	학생
	9:45	10:00	학생
	10:00	10:15	학생
	10:15	10:30	학생
	10:30	10:45	학생
Closing	10:45		폐회

*초록에서 선택 또는 지도교수 추천
